Press Note.

Referring to a letter addressed to the Editor, "Tainadu" by Sri M. R. C. Basappa, Mysore, published in the "Tainadu", dated the 20th February 1954 under the title "loss of rupees one crore from the transactions of rice and ragi", Government wish to point out that certain statements made therein are not true to facts. The following Press Note is, therefore, issued for the information of the public:—

1 The letter alleges that during 1953, Government acquired 14½ lakhs pallas of paddy and one lakh pallas of millets. This is not true. Government acquired only 12,98,048 pallas of paddy and no millets were procured within the State.

2 It is stated that the cost of hulling, handling and transport on each palla of paddy cost Government Rs. 2 whereas it is actually Rs. 2-13-0 per palla. Further it is assumed that Government get an 'iluvari' of 58 per cent in respect of fine paddy and 56 per cent in respect of medium and coarse paddy. But Government are actually getting an average 'iluvari' of 54 per cent for fine paddy and 52 5 per cent for medium and coarse paddy.

3 While pointing out the profit obtained by Government in respect of foodgrains produced locally, the letter ignores the import into the State of rice, wheat and millets from outstde the State which have involved Government in heavy losses. With a view to set off losses in these grains, Government have been selling foodgrains at uniform pool prices all over the State, keeping in view the economic level within the reach of all classes of consumers and the grains consumed by the poorer classes The price structure is based on principle of service at cost.

4 In the letter, it is alleged that although there must have been an enormous profit derived from the trading of foodgrains, Government have suffered a loss of Rs. 2.34 crores. This is absolutely erroneous. There has been no loss in the Food Supply Operations during 1952–53 and even during 1953-54, Government do not expect any substantial loss. Government also wish to assure that they are making constant endeavours to see that there is no loss to Government from food trading and that any profit derived from particular food transactions is passed on to the consumers by subsidising the prices in the case of other grains imported from time to time or by reduction of prices of foodgrains from time to time.
